## Supporting Quality Education in Cloquet

Cloquet Educational Foundation

Spring 2025

The "tradition" of music continues in Cloquet! Students in 1952 gather around a baby grand piano to practice for an up-coming concert.

The CEF awarded a grant to Rhonda Card and the CMS/CHS Music department that enabled the restoration and repair of a 1952 Weber Baby Grand Piano that has been "sidelined" for several years. Ms. Card commented that "this piano has the potential to be a beautiful instrument of great value and will help students perform at a high level and experience advanced music." With funding from the CEF, the piano was restored and a temperature control system installed. The refurbished 1952 Weber Baby Grand recently made a "debut" at a winter concert.

***The Cloquet Educational Foundation provides opportunities for academic, artistic, athletic, cultural, and social growth for children and youth in the Cloquet School District by financially supporting programs and activities.***

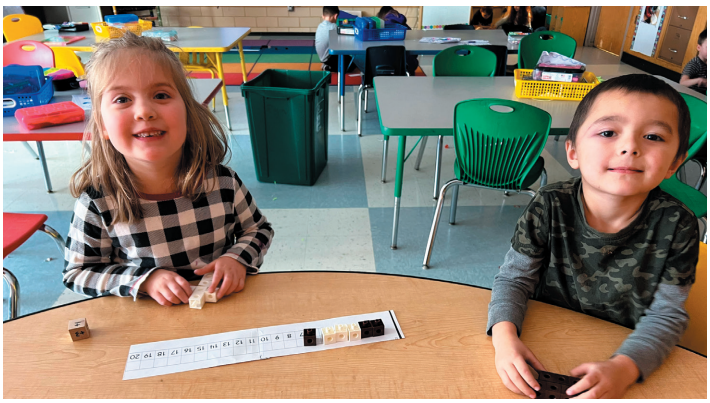

# Giving to the Cloquet Educational Foundation: The Power of Possibilities

**A Mural Club funded by the CEF inspires creativity and engages students in design and collaboration.**

Large and small gifts to the CEF create an enormous number of possibilities within the Cloquet School District. By supporting the CEF, we all can ignite change, proving stability for the future, create innovation, and engage the community in local education.

***THIS is the power of your support.***

**CEF funding provides stability for generations of Cloquet students.**

## So, what DOES the CEF do?

Besides raising private funding support the CEF serves as an advocate for public education and school improvement, provides positive public relations for their schools, serves as a public communication vehicle for the school district, and helps to build bridges between schools and the community. Cloquet Educational Foundation board members strive to establish relationships with community leaders and the public.

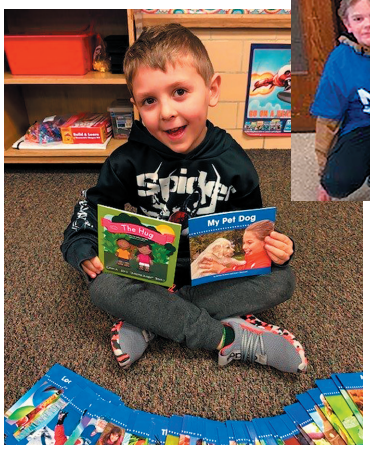

**The "Phoenix Drummers" drum performance.**

**The CEF sponsors the Middle School Student Council: Igniting change through creating a positive culture in the district and in the community.**

**A Math Masters grant from the CEF improves, advances, and enriches students in learning mathematics.**

**The CEF supports 1st grade classrooms with grade level books for emerging readers.**

***I just wanted to express my gratitude and excitement on receiving the CEF grant for building decodable libraries in our primary classrooms! This project has been needed and is so rewarding for our emerging readers to have something they CAN read independently!***

Jennifer Kolodge, Cloquet Public Schools ESEA Director/Literacy Lead/Reading Interventionist

## The Dick and Elizabeth Brenner Endowment for Quality Education:

### *Creating a "spark" for the Cloquet Educational Foundation*

The Dick and Elizabeth Brenner Endowment for Quality Education has been established to provide future generations of students in the Cloquet School District the stability and opportunity for a quality education. The fund is inspired by Dick and Liz, who from the very start of the CEF knew that outstanding education begins on a solid foundation. Details about Dick and Liz's vision for quality education, their valuable insights about enthusiastically supporting students, and the importance of creating a "spark" for an educational foundation will follow. Thanks Dick and Liz Brenner for this decision to continue to support the CEF.

## The Robert and Eleanor Peterson Technical and Educational Fund

This fund is established in memory of my parents, Robert and Eleanor Peterson, who lived and worked all of their lives in Cloquet. This fund will help Cloquet High School continue to provide the latest technology and hands-on experiences for their technical and vocational students to compete successfully in their future careers.

My mother Eleanor graduated from CHS in 1937 and Duluth Teaching College in 1939. Her first teaching assignment was in a one-room school in East Lake, followed by teaching stints in Braham, Moose Lake and at Leach School in Cloquet. Her sisters—Lyla Kalli, Aili Juola, and Ruth Johnson—all had long careers in public education.

My father Robert owned and operated Peterson Plumbing and Heating in Cloquet until his retirement in 1982. Dad's formal education only went through tenth grade, when he began working with his father's plumbing business in 1935. Dad continued to develop his skills over the years, earning his master plumbing license and several boiler licenses. He was well-known in the community for the quality of his work in homes and public buildings, always insisting the job be done right the first time.

Dad served in World War II in the US Navy. He was in the Second Construction Battalion (Seabees), which built airbases and ports supporting the Allied war effort. Dad was stationed in the South Pacific on the islands of Samoa and Funafuti Atoll (now Tuvalu). His construction skills were key to his war service. According to US Naval history, the Seabees' mission and the speed with which they accomplished it was "unparalleled in the history of wartime construction."

I graduated from CHS in 1969 and earned my Doctor of Dental Surgery degree from the University of Minnesota in 1976. My sister Lenore (Penny) graduated from CHS in 1971 and the University of Wisconsin-Stout in 1975. She taught in the Long Prairie school system for several years.

I often credit Mr. Philip Larson, my industrial arts teacher, for helping me get into dental school. The skills I developed in his class—including manual dexterity, mechanical/architectural drafting, reading blueprints—seem unrelated to dentistry, but for me they were crucial to both the the study and practice of dentistry.

My parents would be impressed, as I am, with the remarkable progress CHS has made in technical education. I hope that this fund will encourage Cloquet high school students to think about their future possibilities in a wide variety of technical fields, vocations and professions. The world is waiting for their contribution.
